1. Why do we collect personal data?

The purpose of the processing of the personal data is to collect information and data for the purpose of a research project. The European Commission requested an evidence based advice in the context of their implementation report (Article 12 of Directive 2016/343/EU). The project will explore and identify the relevant aspects of the right to be presumed innocent until proven guilty as procedural right in the criminal proceedings. The objective of the project is to advise the EU institutions and EU Member States on the specific criminal procedural rights. It will look at the [Directive 2016/343/EU](#) and its implementation in the Member States. The project consists of a desk research, case studies and social fieldwork research in form of 12 interviews per country. The information from the interviews will feed into the preparation of a report to be published in 2021.

In order to carry out interviews with experts and staff at public administration (including police officers), their contact details and background information about their work and professional status needs to be collected.
